NEW YORK.

NEW YORK, July 15.—[Special.]—The excitement amongst operators throughout the city was changed to grief during this morning, the apparently unalterable determination of the Executive Committee of the Western Union Telegraph Company to refuse to accede to the demands of the employes, or submit the matter to arbitration, having created a feeling of despondency. Many operators who have been quite confident that the company would accede to the demands, and who have been looking forward to the 1st of August as the day on which they would receive an increase of salary, are correspondingly depressed, and the feeling is general that a strike would be inaugurated on that day. CHOLERA.

Cairo Dispatches.

CAIRO, July 18.—The Egyptian Government has succeeded in effectually suppressing cholera in the Interior districts. The weather here favors the checks which have been formed.

Fifty deaths are reported in Cairo in the last twenty hours. The cholera is raging in many villages and settlements in the interior. Full hospital returns have been suppressed from the fear and terror.

ALEXANDRIA, July 18.—The reports of deaths from cholera yesterday are as follows: At Damietta, 10; Mansoura, 45; Zagazig, 30; Ismailia, 20; Port Said, 4; Cairo, 50; Cairo, 5; and Tanta, 6.

LONDON, July 19.—A Cairo dispatch says the incorrect reporting of the reports relative to the spread of cholera is shown by the fact that during twenty-four hours in a single quarter of Cairo 200 cases were reported. The police are doing everything possible to prevent the true state of affairs, going even to the extent of arresting the sellers of papers on the streets. The names of deaths are disconnected. Advices from Damietta and other districts show that the measures of the authorities adopted to prevent investigation hardship and suffering, and as a result have succeeded in completely.

ARMY NEWS.

Gen. Sir Henry Wade, commander of the forces in Egypt, who had succeeded at Suez for England, his consent, by order of the Khedive, to commanding of the expedition of cholera in Cairo.

THE CAVALLA.

Cavalla.

PARIS, July 19.—The report made by the Cavalla in the matter into execution of the Panama Canal establishes upon the affirmation of the Americans experiments and disposal the principles relating to certain matters of the Latin Union against its monetary constitution the case. The conference of twenty powers among Americans assets that to recognize that those who have undertaken the great work of building the canal across the Isthmus of Panama have an object in view but the removal of a material obstacle to mankind commerce.

ENGLAND.

LONDON, July 19.—At a special meeting today of the London Chamber of Commerce a resolution was adopted declaring that the question of the construction of a ship canal should be referred to a royal commission.

Charles De Lesseps is expected here from Panama to conclude negotiations with the British Government relative to the Suez Canal project.

THE DIPLOMATS.

Appointments of Ambassadors.

LONDON, July 19.—The meeting for the Ambassadors took place at Washington to-day. The price was accepted for the vacant post representing England. Charles, the Ambassador of Great Britain, and Italy. The names were suggested of their own part. The King was at 20, 40, and 50 cents. Each man was allowed seven shots at each target. The only one who is the English team. The names are as follows: England, 200; Canada, 200; Germany, 200; Italy, 200.

A portion of the score sent to the Sentinel Chicago to this morning but Tuesday and contained for the two and 200 yards, inclusive, but the competitors shot Tuesday was the rain, so the score for the two days' shooting was 170, against a total of 180 for Ireland.

The shooting for the Chess Judge was completed at Wimbledon today; the prize was won by Wilson, of the Chess Rifle, who scored 35 shots, but only scored of the Canadian team who succeeded in the score, scored 30, in shooting at 1,000 yards, more than the highest Chess shots.

PEARCE AND CHINA.

By the Cable.

NEW YORK, July 19.—[Special.]—Before sailing today for Europe E. Burnes, late French Minister to China, said, when asked about the Tonquin affair: "What there is to say concerning the present relations between France and China? They have vessels, and that sort of a thing of course you. There will be no fighting between France and China over the Tonquin affair, for they are not natural. I can not tell you, but any one has no knowledge of the peaceful march of our relations, but I have no objection to say that, neither country desiring such a thing, there will be no war."

MURDER AND SUICIDE.

Fatal Quarrel of a Lady Driven Insane.

LONDON, July 19.—[Special Cable.]—The performance here of Booth in the great tragedies continued a feature here nearly eighty. A party yesterday were playing here seven over the Old Bailey of St. Paul's, situated in the centre of the town. Among the guests were Mr. De Vere, a young army officer, and Miss Bedford, an orphan young person and a ward of Lady Bedford and Miss Bedford's companion. Miss De Vere paid out a trifling and then Miss Bedford said on the side, before he could be asked to put the revolver to the ear and then put his own temple. Great excitement prevails, both victims being well known in society, and it has caused the most exciting gossip in London. It is believed that jealousy was the motive of the crime.

Surgeon-General Hamilton on Quarantine Regulations and Medical Science.

WASHINGTON, D. C., July 19.—The Advance Surgeon-General has been requested by the Secretary of the Treasury to submit his views on the subject of quarantine regulations, and in response to that request has submitted the following report:

TREASURY DEPARTMENT, OFFICE OF SURGEON-GENERAL OF THE MARINE-HOSPITAL SERVICE, WASHINGTON, D. C., July 19, 1883.—Sir: In response to your request of the 17th inst. for my views on the subject of quarantine regulations, I have the honor to submit the following:

Quarantine regulations, whether sanitary or commercial, have been enacted and their execution enforced in the United States for many years, and the principles involved in the same have been discussed by the most eminent sanitarians and statesmen of this country and Europe. Many of the quarantine regulations now in force in the United States, and in the various countries of the world, are based upon the principles of medical science, and are necessary for the protection of the public health. Other regulations, however, are enacted for the purpose of protecting commercial interests, and are not based upon any principles of medical science, and are not necessary for the protection of the public health. Many of the quarantine regulations now in force in the United States, and in the various countries of the world, are based upon the principles of medical science, and are necessary for the protection of the public health. Other regulations, however, are enacted for the purpose of protecting commercial interests, and are not based upon any principles of medical science, and are not necessary for the protection of the public health.
